## SUMMARY

Experienced Senior Full Stack Developer with 7 years of experience in scalable web apps for life science, travel, and e-commerce. Skilled in leading teams, mentoring junior devs, delivering high-quality solutions, and driving innovation.

---

## EXPERIENCE

### Full Stack Developer

#### NorthLink Digital

September 2022 - December 2022, United Kingdom

- Designed and implemented an Automated Dashboard Generator using Admin JS, Supabase, and Prisma, reducing project delivery time by 40%. This increased efficiency led to a faster time-to-market and improved customer satisfaction.
- Administered code reviews and resolved 20+ bugs in Nest JS and React JS, improving the quality of the software and minimising errors.
- Familiarised with Microservices architectures using Docker, Serverless Framework, and AWS Lambda, and deployed them in a sandbox environment.

### IT Analyst

#### Tata Consultancy Services

June 2019 - August 2021, India

- Conducted React JS advanced training sessions for 350+ participants as part of the React subject matter expert (SME) team, resulting in elevated adoption of React JS and optimised development practices.
- Carried out technical interviews and evaluated 25+ candidates' React JS skills, resulting in successful recruitment of qualified candidates and upgraded development capabilities.
- Lead team of 5 Developers and Built multiple reusable web components using Stencil JS and Typescript with Pfizer UK's Cross functional team, resulting in \$50,000 boosted revenue for the organisation.

### Senior Full Stack Developer

#### The Cohen International Group

January 2019 - May 2019, Bahrain

- Cooperated with cross-functional teams of 20+ members to deliver high-quality React apps, resulting in refined development practices and better team performance.
- Developed responsive and cross-browser compatible designs using HTML, CSS, and JavaScript, resulting in enriched user experience and enhanced engagement.
- Re-engineered the speed of web application loading time by 30%, resulting in a 5% increase in website visits.

### Senior Software Engineer

#### Bacancy Technology

February 2018 - December 2018, India

- Designed and developed 10+ web applications using JavaScript, Typescript, React JS, Node JS, HTML, CSS, resulting in increased business revenue.
- Enacted responsive designs and cross-browser compatibility for 20+ web applications, resulting in ameliorated user experience and better engagement.
- Incorporated blockchain wallets with 5+ projects, using EtherJS, Web3JS, and enhancing the technological capabilities and competitive advantage of the organisation.

### Senior Software Engineer

#### Zealous System

April 2017 - January 2018, India

- As a senior developer, rectified complex issues in JavaScript code and refined code quality by 25% for a team of 6 developers.
- Contributed to 30+ code reviews and ensured the codebase adheres to best practices, resulting in advanced code quality and better development practices.
- Managed multiple projects and prioritised tasks based on project needs and deadlines, resulting in timely delivery of projects.

### Web Developer

#### SJA Solutions

June 2015 - April 2017, India

- Coded 5+ websites using HTML, CSS, JavaScript, and jQuery languages and Socket.IO.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding.
- Streamlined website performance, increasing speed and scalability by focusing on UX, UI, cross-browser compatibility and responsiveness, resulting in average site speed improvement of 25%.

---

## EDUCATION

### Master's Of Computer Science

Teesside University • Middlesbrough, England • 2023

### Bachelor's Of Computer Engineering

Gujarat Technological University • Gujarat, India • 2015

---

## SKILLS

Front End: React JS, Stencil JS, Next JS, Web3 JS, Ether JS, Javascript ES6, Typescript, Redux, Webpack, Babel

Back End: Node JS, Express JS, Nest JS, MVC architecture, Object-oriented programming (OOP)

Databases: MySQL, MongoDB, PostgreSQL

API Development: RESTful APIs, Prisma

Testing: Test Driven Development (TDD), Jest, Enzyme, Behaviour Driven Development (BDD)

Project Management: Agile, Scrum, JIRA, Trello, Asana, Github, Bitbucket, Gitlab

DevOps and Architect: Serverless Framework, Microservices, AWS Lambda, Docker, SQS, Continuous integration/continuous delivery (CI/CD)
